Material Safety Data Sheet

1. Product and Company Identification

Product name: Tetrafluoromethane
Chemical formula: CF4
Synonyms: Carbon tetrafluoride; Carbon fluoride (CF4); Freon 14; Carbon fluoride; FC 14; Perfluoromethane; R 14; R 14 (Refrigerant); Methane, Tetrafluoro-; Tetrafluorocarbon; UN 1982
Company: Specialty Gases of America, Inc
6055 Brent Dr.
Toledo, OH 43611
Telephone: 419-729-7732
Emergency: 800-424-9300

Component Related Regulatory Information
This product may be regulated, have exposure limits or other information identified as the following: Fluorides.

3. Hazards Identification

Emergency Overview
Containers may rupture or explode if exposed to heat.
May cause difficulty breathing.

Potential Health Effects
Inhalation: Nausea, vomiting, symptoms of drunkenness, disorientation, suffocation.
Eye contact: Frostbite.
Skin contact: Irritation.
Ingestion: No information on significant adverse effects.
Chronic Health Hazard: None known.

4. First Aid Measures

Eye contact: Wash eyes immediately with large amounts of water, occasionally lifting upper and lower lids, until no evidence of chemical remains. Then get immediate medical attention.

Skin contact: If frostbite or freezing occur, immediately flush with plenty of lukewarm water (105-115°F, 41-46°C). DO NOT USE HOT WATER. If warm water is not available, gently wrap affected parts in blankets. Get immediate medical attention.
Ingestion: If a large amount is swallowed, get immediate medical attention.
Inhalation: If adverse effects occur, remove to uncontaminated area. Give artificial respiration if not breathing. Get immediate medical attention.
Note to physicians: For inhalation, consider oxygen.

5. Fire-Fighting Measures

Suitable extinguishing media: Regular dry chemical, carbon dioxide.
Specific hazards: Negligible fire hazard.
Fire fighting: Move container from fire area if it can be done without risk. Cool containers with water spray until well after the fire is out. Stay away from the ends of tanks. Withdraw immediately in case of rising sound from venting safety device or any discoloration of tanks due to fire. For tank, rail car or tank truck: Evacuation radius: 800 meters (1/2 mile). Use extinguishing agents appropriate for surrounding fire. Cool containers with water spray until well after the fire is out. Apply water from a protected location or from a safe distance. Do not get water directly on material. Reduce vapors with water spray. Avoid inhalation of material or combustion by-products. Stay upwind and keep out of low areas. Consider downward evacuation if material is leaking.

6. Accidental Release Measures

Occupational spill/release: Stop leak if possible without personal risk. Keep unnecessary people away, isolate hazard area and deny entry. Stay upwind and keep out of low areas.
Additional advice: None.

7. Handling and Storage

Handling: Secure cylinder when using to protect from falling. Use suitable hand truck to move cylinders.

8. Exposure Controls / Personal Protection

Exposure limits
ACGIH: 2.5 mg/m3 TWA (as F)
OSHA (final): 2.5 mg/m3 TWA as F
OSHA (vacated): 2.5 mg/m3 TWA

Component Biological Limit Values
ACGIH: Fluorides in urine: 3 mg/g creatinine, prior to shift (B, Ns); Fluorides in urine: 10 mg/g creatinine, end of shift (B, Ns).

Engineering measures/Ventilation
Based on available information, additional ventilation is not required. Ensure compliance with applicable exposure limits.

Personal protective equipment
Respiratory protection: The following respirators and maximum use concentrations are drawn from NIOSH and/or OSHA.
Any powered, air-purifying respirator with a full facepiece and organic vapor and
acid gas cartridge(s).

Any chemical cartridge respirator with a full facepiece and organic vapor and acid gas cartridge(s).

For unknown concentrations or Immediately Dangerous to Life or Health – Any supplied-air respirator with a full facepiece that is operated in a pressure-demand or other positive-pressure mode in combination with an auxiliary self-contained breathing apparatus operated in pressure-demand or other positive-pressure mode.

Any self-contained breathing apparatus that has a full facepiece and is operated in a pressure-demand or other positive-pressure mode.

11. **Toxicological Information**

The components of this material have been reviewed in various sources and no selected endpoints have been identified.

**Component Carcinogenicity**

ACGIH: A4 – Not Classifiable as a Human Carcinogen.

12. **Ecological Information**

No LOLI ecotoxicity data are available for this product's components.

13. **Disposal Considerations**
Waste from residues / unused products
Contaminated packaging
Dispose in accordance with all applicable regulations.
Return cylinder to supplier.

14. Transport Information

DOT (US only)
Proper shipping name
Class
UN/ID No.
Labeling
Tetrafluoromethane
2.2
UN1982
Non-Flammable Gas

15. Regulatory Information

U.S. Federal Regulations
None of this product’s components are listed under SARA Section 302/304 (40 CFR 355 Appendix A), SARA Section 311/312 (40 CFR 370.21), SARA Section 313 (40 CFR 372.65), CERCLA (40 CFR 302.4), TSCA 12(b), or require an OSHA process safety plan.

SARA 311/312
Acute: Yes
Chronic: No
Fire: No
Reactive: No
Pressure: Yes

U.S. State Regulations
The following components appear on one or more of the following state hazardous substances lists:
