MATERIAL SAFETY DATA SHEET

SECTION 1. PRODUCT AND COMPANY IDENTIFICATION

MANUFACTURER: TRANSENE COMPANY, INC.
ADDRESS: DANVERS INDUSTRIAL PARK
10 ELECTRONICS AVENUE DANVERS, MA 01923,
TEL: (978) 777-7860 FAX: (978)-739-5640
WWW.TRANSENE.COM
EMERGENCY NO. 1-800-424-9300 CHEMTREC

MATERIAL NAME: COPPER ETCHANT APS-100
REVISED: July 2009
General Use: Etchant for copper and copper films.

SECTION 2. HEALTH HAZARD INFORMATION

GHS Classifications
Oxidizing liquids: Category 2
Corrosive to Metals: Not classified
Acute toxicity Oral: Not classified
Acute Toxicity Dermal: Not classified
Acute toxicity Inhalation: Not classified
Skin corrosion / Skin irritation: Category 2
Serious eye damage / Eye irritation: Category 2A
Respiratory or skin sensitization: Not classified
Special target organ systemic toxicity single exposure: Not classified
Special target organ systemic toxicity repeated exposure: Not classified
Acute aquatic environmental hazards: Not classified
Chronic aquatic environmental hazards: Not classified

Pictograms or Hazard symbols

Danger: May intensify fire. Oxidizer.

Warning: Harmful if swallowed, in contact with skin, or inhaled. Causes skin irritation and serious eye irritation.

Precautionary Statement Prevention
Use only in a well-ventilated area. Do not eat, drink or smoke when using this product. Do not breathe fume/gas/mist/vapors/spray.
Wear protective gloves/protective clothing /eye protection/face protection.
Wash hands thoroughly after handling.
Avoid release to the environment.
SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

SECTION 4. FIRST AID MEASURES

EFFECTS OF OVEREXPOSURE

FIRST AID:

Eye Contact: May cause irritation and pain. Seek medical attention.

Skin Contact: Corrosive to exposed skin. Flush skin well with water for 15 minutes. Remove affected clothing.

Inhalation: May irritate the mucous membranes. May cause lung edema. Symptoms may include throat irritation, shortness of breath, inflammation of nasal passages, and coughing. Asthma-like symptoms may develop.

Ingestion: May cause abdominal pain, nausea, and vomiting.

SECTION 5. FIRE FIGHTING MEASURES

Flash Point and Method: non-flammable

Autoignition Temp. NA

Flammability Limits In Air LOWER NA UPPER NA

Extinguishing media: Water spray or fog, carbon dioxide and dry chemical. Do not use organic media.

Special fire fighting procedures: Wear chemically retardant gear and NIOSH approved self-contained breathing apparatus. Oxidizer. Heat of reaction with combustibles or reducing agents may enhance fire. Explosion hazard when mixed with finely powdered organic matter, metal powder, or reducing agents.

SECTION 6. ACCIDENTAL RELEASE MEASURES

SPILLS, LEAKS: Ventilate area of leak or spill. Remove sources of ignition. Clean-up personnel should wear protective clothing and NIOSH approved respirator if no ventilation is available. Dike and cover the contaminated areas with absorbent, non-combustible material such as earth, sand, or vermiculite.

SECTION 7. HANDLING AND STORAGE

Wash thoroughly after handling. Remove contaminated clothing and wash before re-use. Do not breathe dust, mist, or vapor. Do not expose eyes, skin, or clothing. Keep container closed tightly. Avoid contact with combustibles. Do not use with metal tools or items. Use with adequate ventilation or respiratory protection. Do not store near combustibles or in direct sunlight. Store in a cool, dry, well-ventilated area away from incompatible substances. Separate from metals, reducing agents, and organics. Empty containers may be hazardous.

SECTION 8. EXPOSURE CONTROL/PERSONAL PROTECTION

Respiratory protection: Wear NIOSH/MESA approved full or half face piece (with goggles) respiratory protective equipment to avoid exposure to mist. A respiratory protection program complying with requirements of 29CFR 1910.134 is recommended.

Ventilation: Where adequate ventilation is not available, use NIOSH approved vapor respirator with dust, fume and mist filters. Local ventilation through fume hoods or laminar flow stations is also preferred. Keep fumes away from strong bases.

Protective gloves: Skin contact should be minimized through use of rubber gloves.
Other protective equipment: Steel tipped shoes/eye wash station/chemical safety chemical retardant clothing.
Eye protection: Safety goggles / face shield

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

SECTION 10. STABILITY AND REACTIVITY

Stability
- Stable X Conditions to avoid: Excess heat, light, confined spaces
- Unstable

Incompatible with:
- Metals/metal powders, reducing agents, strong bases, acetic acid, alcohol, acetone, aniline, hydrogen sulfide, carbides, organic solvents, combustibles, chromic acid, flammables, cyanides, sulfides.

Hazardous decomposition products: oxygen, ozone. Burning may produce nitrogen oxides, sulfur oxides, and sulfuric acid.
- Hazardous May occur Conditions to avoid: Excess heat, damp.
- polymerization: Will not occur X

SECTION 11. TOXICOLOGICAL INFORMATION

ACUTE:
- LD₅₀ (oral, rat): 3,500 mg/kg
- Carcinogenicity: no

SECTION 12. ECOLOGICAL INFORMATION

Bioaccumulation: There is no evidence of bioaccumulation.

Ecotoxicity: No data

SECTION 13. DISPOSAL CONSIDERATIONS

DISPOSAL: Dispose of in accordance with all federal state and local regulations. Send
waste to an approved waste disposal facility.

SECTION 14. TRANSPORTATION INFORMATION

Class 5.1
PG III
UN3139
Shipping Name: Oxidizing Liquid, N.O.S. (Ammonium Persulfate Solution)

SECTION 15. REGULATORY

Symbol: O, oxidizing
R-Phrases:
R8: Contact with combustible material may cause fire
R20/21/21: Harmful by inhalation, in contact with skin and if swallowed
R41: Risk of serious damage to eyes

S-Phrases:
S17: Keep away from combustible material.
S23-36/37/39-45 Do not breathe vapor. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Wear suitable protective clothing, gloves, and eye/face protection. In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).

SECTION 16. OTHER INFORMATION

NFPA Codes:
Health: 2
Flammability: 0
Reactivity: 3

All ingredients of this product are listed on the US TSCA inventory under their parent anhydrous compounds.
